YUSUF MOHAMED
1001 E 46TH ST
MINNEAPOLIS MN 55407-5324

Dear YUSUF MOHAMED:

Thank you for participating in the City of Minneapolis's voluntary water testing program. Here are your test results:

Address	1001 E 46TH ST
Sample collected from	Kitchen Sink
Test Date	02/19/2025
Metal Analyzed	Lead
Your Result	2.0 parts per billion (ppb)
EPA Action Level	15.0 ppb

HOW TO INTERPRET YOUR RESULT

Your result of **2.0 ppb** is below the Environmental Protection Agency's (EPA) action level of 15.0 ppb. One ppb is equivalent to about three seconds in 100 years. However, according to the EPA, there is no level of lead that is without risk.

Our laboratory staff can help you understand this complicated issue. **If you have any questions about your test result or would like help identifying the source of the lead, please call 612-661-4999.**

THINGS YOU CAN DO TO HELP PROTECT YOUR WATER FROM LEAD

The EPA advises taking as many steps as possible to reduce lead levels in water. The tips in the pamphlet that came with your sampling kit are a great place to start. Information is also available on the City's website at minneapolismn.gov/water-quality-lead.

THINGS THE CITY DOES TO HELP PROTECT YOUR WATER FROM LEAD

Lead can leach into the water when it comes in direct contact with lead and galvanized steel water service lines and household plumbing fixtures. The way we treat Minneapolis water before it makes it to your home helps to keep the lead in piping systems from dissolving into your drinking water.

More information about lead is available on the City's website at minneapolismn.gov/healthy-homes.

Sincerely,

City of Minneapolis
Public Works Water Treatment & Distribution Services

For reasonable accommodations or alternative formats please contact Matthew Croaston, Public Works Water Treatment & Distribution Services Division, 612-299-2734, matthew.croaston@minneapolismn.gov. People who are deaf or hard of hearing can use a relay service to call 311 at 612-673-3000. TTY users call 612-263-6850.
